CHAMPAGNE DEVAUX Collection 'Cuvee D' Aged 5 Years Brut NV Bottle/cc VGN

~~*£49.95*~~

£41.95

The Cuvee 'D' wines are Devaux's very best; the grapes are the very best quality from Champagne and so growers who qualify for this high level are paid accordingly. Devaux are Pinot Noir specialists. The majority of their vineyards are located in the Aube where Pinot Noir is the dominant variety. This location, on the slopes of the Côte des Bars, is important; it gives this variety a lovely Pinot Noir richness on the nose and a long finish, yet retains the finesse. Some Chardonnay is included in the blend; this is grown on the fine chalky soils of the Côte des Blancs and Vitry to give liveliness and elegance.

The NV 'Cuvee D' is rich and sleek and is, in Anthony Rose's words, a 'luxuriously toasty, creamy number.' The Pinot Noir gives body and length to the wine, while the Chardonnay adds elegance and finesse.

£225.00

The Louis Roederer Cristal 2016 is crafted from roughly 60% Pinot Noir and 40% Chardonnay, sourced exclusively from the house's biodynamically farmed Grand Cru vineyards. Following a wet spring and a dry summer, the vintage yielded fruit of remarkable quality.

To preserve its natural tension, the blend avoids malolactic fermentation and incorporates a portion of oak-fermented base wines. After over six years of lees ageing, it pours a bright gold. The nose reveals candied lemon, white flowers, and toasted almonds over a chalky foundation. On the palate, it is precise and energetic, delivering bright citrus flavours supported by a firm, saline structure and a long, focused finish. The Waterford Estate Antigo 2022 is a Bordeaux-style red blend produced in the Stellenbosch region of South Africa. The wine is predominantly composed of Cabernet Sauvignon, blended with Merlot, Cabernet Franc, and Petit Verdot. Cultivated in the Blaauwklippen Valley, the vines are planted in red clay soils that directly influence the wine's structural characteristics and deep ruby colour. On the palate, this vintage presents primary notes of dark plum and blackberry, accompanied by subtle oak and cedar. The inclusion of Merlot and Cabernet Franc softens the robust nature of the Cabernet Sauvignon, yielding integrated tannins and a balanced profile. Suitable for early consumption or medium-term cellaring, the Antigo 2022 pairs effectively with roasted red meats, hearty stews, and firm aged cheeses.

CATHERINE MARSHALL Pinot Noir 'On Clay Soils' - Elgin 2024/25 Bottle

Catherine Marshall Pinot Noir on Clay Soils, formerly known as the Reserve, comes from heavier clay soils; the resultant berries carry a deeper, more brooding character displaying layered, textured truffle savouriness and earthy forest floor interwoven with concentrated black cherry compote harmoniously supported by mineral textured tannins. Ageing potential: Although the wine is approachable at its primary stage with fresh cherry and red berry components evident at youth, the wine will age for at least 10 years where primary components will evolve to tertiary forest floor, truffle, earthy and savoury notes that are typical in great Burgundy examples. Food pairing: This is first rate, expansive Pinot Noir that pairs well with glazed duck, mushroom risotto, boeuf bourguignon, lamb, coq au vin, venison and ostrich.

Like them, the spirit of the Aegean runs through Ammos, a unique vodka crafted with aromatic lemons rich in legacy and briny olives kissed by the sea breeze. Using a wheat grain spirit as a base, each ingredient undergoes a two-week-long maceration process. They are then cold-distilled under vacuum using rotary evaporation, preserving complexity that would be lost under traditional heat distillation. Born from the natural flavours of the Aegean coastlines, Ammos is a sipping vodka lightly infused with olives and lemons.

WINESAVE PRO (9 Litres, 150 Serves) Each

winesave™ keeps opened wine at its peak for weeks after it has first been opened. Oxidation and the resulting spoilage of opened wine is now a thing of the past as it protects opened wine by laying a pure, inert and odourless gas called argon (which is heavier than air) across the wine's surface in the bottle, thereby protecting it. For the wine drinker, this means you can enjoy the luxury of wines by the glass at home. It also means that you will never again waste any wine because of oxidation, nor ever feel compelled to finish a bottle just because it has been opened. Each canister contains approximately 150 applications.
